

**ERRATA**

Volume 25, Number 2, page 57: The second paragraph of Section 1 in "Introducing Mira Variables" should read:

"Depending on the abundance ratio of carbon to oxygen in their surface layer, Miras are of spectral type M, S, or C. M and S spectral type Miras have  $C/O < 1$ ; C spectral type Miras (carbon stars) have  $C/O > 1$ ; S spectral type Miras contain ZrO lines in their spectra."

Volume 25, Number 2, page 115, first two lines of Section 1: David Fabricius was born in *East* Friesland, which is part of Germany, not The Netherlands.
