ACP Expert makes the most of your imaging time

Get the Most From Your Observatory!

ACP Expert™ manages your observatory 24/7, feeding the images it acquires into the cloud. Give it work months in advance. When the weather is good and it’s dark, it gets the job done.

Easy — anyone can do it!

- Minimizes your chance of making mistakes
- Automatic planning
- Web / Cloud enabled
- Simple form-based entry
- Mobile devices and tablets (Android & iOS)
- Used throughout AAVSOnet

Multi-Target:

- Planning is tricky and time-consuming... Scheduler does it for you!
- Tell Scheduler what you want, and under what conditions — one simple Web form!
- Your data eventually just “appears”.
- Scheduler acquires your images when the time and conditions are right.

Special Pricing for AAVSO 2022!

Pricing good through December 15, 2022
