Throughout its 100-year history, the American Association of Variable Star Observers (AAVSO) has welcomed professional astronomers to its membership ranks, and has encouraged their participation as organization leaders. The AAVSO has been fortunate to have had many distinguished professionals serve as officers (Directors, Presidents, Council), and as participants in its various scientific and organizational committees.

Professional astronomers in Service to the AAVSO

In addition to the astronomers shown here should be mentioned AAVSO Directors Margaret W. Mayall, Janet A. Mattei, and Arne A. Henden, and also Assistant Director Aaron Price and Science Director Matthew Templeton, for the countless hours beyond their paid duties by which they have contributed to the operation of the AAVSO and thus in service to variable star astronomy.
